

TREE ASSESSMENT CONGRESS

28.02-1.03.2018

WROCLAW

Tree Assessment Congress of is a novel initiative to exchange experience among professionals and learn from leading international experts. The event offers lectures by renowned specialists in ancient tree management, fungi communities in trees and instrumental diagnostics, including international guests. The second Tree Assessment Congress will be held on 28'th of February and 1'st of March 2019 in Wrocław.

The Congress is organized by the Tree Institute (Instytut Drzewa), together with partners - Wrocław School of Arboriculture and Treeclimbing Poland. The Tree Institute provides professional courses, including the Certified Tree Assessor course, as well as comprehensive tree assessment services.

The conference will take place in Wrocław's Africarium. It is Poland's first oceanarium and the only one in the world devoted to the flora and fauna of just one continent. The most fascinating and at the same time endangered species of the Dark Continent are presented. Participants will receive tickets allowing the entrance to both Africarium and ZOO.

Conference fees include: conference materials, meals (vegetarian), ticket to Africarium. Fees for each of the two days (possible registration for all or selected days) do not include accommodation. Early bird registration is open until January 15th, 2018 at a reduced rate of 676 zł (including VAT). After January 15th: 800 zł (including VAT).
